

# I Believe You

White Lung

Pass it now  
So I'll believe you  
Crush my hand  
You eat my head

Believe her now  
Yeah, I believe you  
God, you're so strong  
I'm not afraid to try

You close in hard  
You come in hard  
You come in hard  
You come in hard

You are so dim

I run, chase me  
Because I'm only staying upside down

Believe her  
Yeah, I'll believe you  
God, you're so strong  
And I'm not afraid to try

You close in hard  
You come in hard  
You come in hard  
You come in hard

You are so dim  
You are so dim

You don't take me  
You won't make me  
You don't take me  
You won't make me  
You don't take me  
You won't make me  
Because I'll always,  
I'll always win
