

Kiss Me When I Bleed

White Lung

Love is a beast now
It rots my teeth now
But he'll chew through the lies for me
He'll suck out your eyes for me
And I do the same

I will give birth in a trailer
Huffing the gas in the air
Baby is born in molasses
Like I would even care
(They can beat me up
I never walked straight anyway)

I got a basic need
Kiss me when I bleed
They say I split my pride in two
When I became a bride for you
But what do they know?

I will give birth in a trailer
Huffing the gas in the air
Baby is born in molasses
Like I would even care
(They can beat me up
I never walked straight anyway)

I will give birth in a trailer
Huffing the gas in the air
Kiss me when I bleed
Kiss me when I bleed
Kiss me when I bleed
Like I even care
