

Sycophant

White Lung

It's been so long
Where did he go?
A dope like Hell
A man worth dough
You pretty thing,
I chew like tar
My world's the whip,
Get in the car with me

It's burning you
It's hurting you
And when it hit me
I lied
I lied

Illiterate
And by my side
Set the table,
Sycophant tide
I'm the fear
And you're the dark
Leave your mark on me

It's burning you
It's hurting you
And when it hit me
I lied
I lied

What now?
