

The Day You Won The War

White Rabbits

He took anything that you offered him
Telling where to begin, giving attitude
Now the day you won the war
Did you feel in pain?
My head started to offered

Now days we've got
All that we've got
Nobody's got something they wanna hurt
Now the day you won the war
Did you feel in pain?
Come on, let's started and back now

Taking a drive.....
Taking a drive, that's oh god
Now the day I'll bring home burn
Oh but you stilling like a child in the can't even feel
it
And all I want to do is searching
Does it make you feel better
How could you know?
Uhu, uhu
