

They Done Wrong / We Done Wrong

White Rabbits

As they done wrong
And we done wrong
Now what makes you so certain all their finger pointing's done
As they don't know
What they been told

They say it best
They're already there
And its not
The way it seems at all

So come on now
Now shake things down tell me how everyone's gone way to soft
Cos they don't know
What it might take

They say it best
They're already there
And its not
The way it seems at all

Everybody stay where you are
Cos they don't know
What they've been told
They say it best
I'm already there
And its not what I thought it would amount to

They ain't calling us now
Now let's just make a time of it
Why you shouldn't tell me now how everyone's gone way to soft

Cos they don't know
What they've been told
They say it best
They're already there
And its not the end of the line for you
I'm already there
When it stops
Like it's supposed to

I'll be coming around
Enough's enough
I just want to get down to it
No no no
