

## Tourist Trap

White Rabbits

I had a dream that we left here  
To get on to the bus upstate  
Spent all the money soon as we left  
Slept in an old matinee

Stayed in a town where they knew us  
And laid on the grass in the square  
Got ourselves lost in the country one day  
Nobody knew we were there

Burnt cigarettes in the air  
We watched them fall  
And we let ourselves get carried away  
That was the end of a long holiday

La la la la la la la la  
La la la la la la la la

I had a dream that we went back home  
Nobody knew we were gone  
Ran off again when they all went to bed  
Left a ??? on the lawn

World went by outside the window  
You rested your head in my lap  
I saw a lighthouse across the great lake  
Read in an old paperback

Ain't it a treat, tourist trap  
It's not the same  
And we let ourselves get carried away  
That was the end of a long holiday

I woke up miles away  
And I'd send them a postcard  
But all of our friends came along for the ride  
Slept by the sea and went ????

Ohh
