

# I Wanna Fly Away

White Skull

I'm so down and lonely  
No one will understand why  
I've it all but I'm alone  
There's an angel voice that  
Calls me in my mind  
It's coming from space or another earth

I close my eyes  
I want to sleep  
A blond angel appears to me  
She is not a dream  
Come in my land she asked me  
I left my heart out  
I am alone  
I've nothing to lose  
My eyes are blind and  
I don't believe in love anymore

I want to go but I don't know  
How follow my angel in the sky  
I want to fly but I have no wings  
Follow me into a new life  
Now it's time to say goodbye  
Unchain me, my body is floating high now  
Silence broken in my head  
It's not some fake disease
