## **Missing Link**

## White Skull

We see you, but you don't see us

We are sailing day by day
We are searching for the land
The connection from East and West
That no one has ever found

Losing direction, we are seeing Only water everywhere Over the ocean, following the Stars The right place is here

Feel it in the air, Atlantis isn't far

## Chorus

Mysterious land you keep Your treasures concealed Hiding between continents Impossible to Find

Under the Oceans
With all your secrets
You are the center of the world
And now we know
That you are
The missing link between two worlds
