

# Redemption

White Skull

There's a breach in their mind  
Tonight  
Feeling the frightened thoughts  
Up high  
Breaking into  
The early morn of day  
Willing to fight  
You'll be there

I feel seizures -  
Lives are threatened  
Well being your time has come  
Master they loathe  
Master they mind  
My stare divine

Redemption  
Now you will be crying  
Now, the battle's begun  
Shoot me now  
That we're face to face  
Leading to misery -  
Death is coming  
Clash so loud  
Like thunder in a rage  
Round for round the blood  
Will stain the day  
One in all they start  
To fall its clear  
I can almost feel  
The victory is near

I feel seizures -  
Lives are threatened  
Well being your time has come  
Master they loathe  
Master they mind  
Mt stare divine

Redemption  
Now you will be crying  
Now, the battle's begun  
Shoot me now  
These the words I say  
Look what I have  
Become -  
Death I'm wanting

Death - come to me -  
Shut up

I feel seizures -  
Lives are  
Threatened  
Well being your time  
Has come  
Master they loathe

Master they mind  
My stare divine

Redemption  
Now you will be crying  
Now, the battle's begun  
Shoot me now  
That we're face to face  
Leading to misery -  
Death is coming

We fought for long years  
To end what we began  
So much was lost  
Lives taken and now  
It is silence
