

Look at the sky now can your richness buy it all ?
There's no price you can state or politicians to pay
No million dollars spent
And i raise my head and
Look for happiness but
I can't statr i can't stop
I can't go i can't walk
War is all around.
You see you're living in wellness and freedom now
But you think at once it will change
All around leaving you astray
And you raise your head and
Look for happiness but
I can't start i can't stop
I can't go i can't walk
War is all around.
