

# She Won't Wait All the Night

White Skull

Mama says I'm too proud to make it real  
to forget the past and give away the tears  
I'd like to run around in a desert place  
but the memories it makes me wanna cry  
and when I'm down I touch the hell  
and when I'm down I'd try the suicide  
She won't wait all the night  
Daddy's gone insane I don't know why  
he tried to strangle me  
when I was just a child  
and all the things I've done  
were never right  
all the things I've said I had to justify  
She won't wait all the night  
When you try to break this, this chains  
when you are in need, she's not there  
don't you wanna find where's your disease ?  
She won't wait all the night  
Mama time has gone and I want to shed  
this shroud of grey we wear all life long  
I'm treading on thin ice, I feel the pain  
and I'd like to leave but never say goodbye  
She won't wait all the night  
When you try to break this, this chains  
when you are in need, she's not here  
don't you wanna find where's your disease ?  
when you are in troubles, get tough  
fight hard until the battle is won  
never condescending and say no !  
She won't wait all the night
