Valhalla

White Skull

The Kingdom of Odin is the Kingdom of Gods Where only souls of the brave may rest in peace But someone among them had the skill of deceit And raised the hand that would open the road to Hell

[CHORUS] When the winds of Valhalla run cold Be sure that the blood will start to flow When the winds of Valhalla run cold Valhalla

The ring has been broken and a soul must be saved Among the bravest of men, who rides to Hell The longships are sailing and the chariots ride And yes the anger of Thor will serve you well

[CHORUS]

Raise your hands Reach and Valhalla will save your soul Raise your eyes And Odin will lead us on

They say that history repeats itself Upon the year of the seventh Century Well nobody knows no you never can tell So you'd better run now and hide away

[CHORUS]
