Fight To The Death

White Wizzard

Don't preach to me about your God Tell me who and what to be Don't tell me how to live my life or seek my destiny In the light of choosing to be free My mind will find the way In the heart and soul of my freewill I'll live another day

Free to choose and to be me Power rule my destiny

I am a soul of light in overdrive A stardust rider of the sky You'll never take me alive 'Cause I'll fight to the death for the light Forever flying high

Never try to brainwash me Into thinking what you believe Keep your religion to thyself and get away from me Forever I'll fight to keep my mind And always rule my soul You'll never gain an inch of your desire to control

The path is clear to fly so high Like a dragon in the sky

I am a soul of light in overdrive A stardust rider of the sky You'll never take me alive 'Cause I'll fight to the death for the light Forever flying high

Like an eagle soaring higher Riding in the wind, never to give in I will stand my ground forever Always true to me, forever I shall be

So don't preach to me about your God Tell me who and what to be Don't tell me how to live my life or seek my destiny In the light of choosing to be free My mind will find the way In the heart and soul of my freewill I'll live another day

Free to choose and to be me Power rule my destiny

I am a soul of light in overdrive A stardust rider of the sky You'll never take me alive I am a soul of light in overdrive You'll never take me alive 'Cause I'll fight to the death for my life Forever flying high
