

# Over The Top

White Wizzard

On the horizon  
In the killing fields  
You have to fight to carry on  
Look to the starlight  
See your destiny  
Never give up the will to be

You're gonna make it - You've got the fire  
Flames of your destiny - Burning with desire  
You've got the dreams - You're burning higher  
On wings of steel you soar to heights that will inspire

OVER THE TOP!  
The magic in us all that will survive  
The fuel that drives to keep the dream alive  
Over the top

Out in the cold night  
And on the darkest day  
You have to fight against the grain  
Look deep inside you  
Find out what is real  
Honesty and truth will be revealed

(repeat verse 1)  
(bridge)  
(chorus)
