Take a journey into fear Demon warp invasion Thunder wheels rolling Crush 1000 faces

Sworn to fun and loyal to none

When the beast is clever The best it ain't over Walk alone on borrowed time And kiss tomorrow goodbye

Sworn to fun and loyal to none

Lost inside a human zoo Edge of life wants you Got a grip on the wire But my brain don't get no higher

Disaster blaster Disaster blaster

Leather skin move to the beat Beastman insulated heat Looking for a sleeping dream Hop-head body scream

In the morning Ready to learn What's happening And who's gonna burn

Get on your feet Time to die On the floor Machines don't die

Stealing the world Walking away
Poison mind
