

## Starface

## White Zombie

September in the rain - her sweat come a frozen onto  
my skin - Eliminate the outerspace and come and get I'm  
swing'n down it again - Synchronize me - fall away - I  
believe that - I wicked on the way look alive now! Yeah!  
Stars explode my eyes - Well, "I been down a long time"  
Days crawl away and die "forever is a long time!"  
Remember howling "crazy" like at the moonlight  
superfly - A penetrating powerman "O baby" I'm painted  
in the sky - Iron fister - on the  
hour / paralyzing demon - flower  
- Yeah! Stars explode my eyes - "I  
been down a long time" Days crawl  
away and die "forever is a long  
time!" Surround the pain the love's  
insane - got a pseudo-systematic  
gain Careening through the neon  
side - a horizontal "mind collide" -  
Harum scarum holiday - Double  
deal'n on the ones who say  
"collapse me with a powerblast"  
Groung to zero roll'n fast - Ride  
the glide - treasure slide - got a  
wooden symbol soul inside - "Freeze"  
the heart - a razor tear pack she  
doesn't care - If the pillow jacob sky snatch the pad I  
don't deny - Been a long time - been a long time - Step into  
the wind a watch a red girl come alive She scream'n to  
the world "I diggin' on the fact that you will not  
survive!" Radiate me - walk away - You shook the devil's  
dig deep hand today - Yeah! Stars explode my eyes, Well,  
"I been down a long time" Days crawl away and die,  
"Forever is a long time!" A million miles an hour - a  
million miles an hour - a million miles an hour - let's  
get inside!
