

## Elitist Ones

Whitechapel

It took a long time to realize and admit  
That our words don't mean a thing  
So keep talking your shit  
How can we honestly live in fear  
When everyone will die in a hundred years

Respect, trust and loyalty  
I've gave it out and I've taken it too  
But what's the point when everyone  
Will secretly think they're better than you

This is what we have become  
A self absorbed population of scum  
The vision of the future is like staring at the sun  
God damn (god damn) the elitist ones

This is what we have become  
A self absorbed population of scum  
The vision of the future is like staring at the sun  
God damn (god damn) the elitist ones

(This is what we have become)

I've seen it all there's nothing I haven't heard  
Just stay at home and remain a coward  
And swallow down that salt in your mouth  
Because nobody gives a fuck what comes out

Respect, trust and loyalty  
I've gave it out and I've taken it too  
But what's the point when everyone  
Will secretly think they're better than you

This is what we have become  
A self absorbed population of scum  
The vision of the future is like staring at the sun  
God damn (god damn) the elitist ones

This is what we have become  
A self absorbed population of scum  
The vision of the future is like staring at the sun  
God damn (god damn) the elitist ones

One day we'll all regret  
The things we've said  
From here on out don't open your mouth  
Show some fucking respect

Show some fucking respect  
Karma will come for your neck  
I've run out of patience  
For so called elitists

Show some fucking respect  
Karma will come for your neck  
I've run out of patience  
For so called elitists

Respect, trust and loyalty  
I've gave it out and I've taken it too  
But what's the point when everyone  
Will secretly think they're better than you

This is what we have become  
A self absorbed population of scum  
The vision of the future is like staring at the sun  
God damn (god damn) the elitist ones

This is what we have become  
A self absorbed population of scum  
The vision of the future is like staring at the sun  
God damn (god damn) the elitist ones

(This is what we have become)  
(God damn the elitist ones)  
(This is what we have become)  
(God damn the elitist ones)
