

# Let Me Burn

Whitechapel

The mouth of hell is open wide tonight

You can't reason with a man who hates everything  
I want to see everyone in pain  
I can't change how the way things turned out  
All I have now is regret, a match and some gasoline  
I had it all; the woman of my dreams, all the money in the world  
And the sweetest little girl  
The perfect life, the American dream  
All wasted by insanity

Why do I do the things I do  
Why am I evil through and through  
What would you do  
If you had nothing left to lose

Spark the flame, let me burn  
There's nothing left to live for  
I've lost everything so spark the flame and let me burn  
Take my hand one last time  
I need to feel you before I die  
This is our last goodbye  
Now spark the flame and let me burn

I won't lie about what I did  
I cut her head off and threw it in a ditch  
Why I only kept the body was a logical choice  
I threw away the head because I hated the sound of her voice

Why do I do the things I do  
Why am I evil through and through  
What would you do  
If you had nothing left to lose

Spark the flame, let me burn  
There's nothing left to live for  
I've lost everything so spark the flame and let me burn  
Take my hand one last time  
I need to feel you before I die  
This is our last goodbye  
Now spark the flame and let me burn

I am the devil's answer  
I am humanity's cancer  
I am the devil's answer  
Burn me for eternity

Let me burn  
Let me burn  
I've lost everything  
There's nothing left to live for now

Spark the flame, let me burn  
There's nothing left to live for  
I've lost everything so spark the flame and let me burn  
Take my hand one last time  
I need to feel you before I die

This is our last goodbye  
Now spark the flame and let me burn
