

# End Of The Line

Whitecross

3x

I found that just when I feel all alone  
With nothing to really call my own  
All my friends have left me stranded  
And they've let me down, down on the ground

I found a hope that never fades (places) away  
No matter if it's night or day  
I can't always count on him  
I know He'll always be, be there for me

Someday this train is gonna head on down the line  
And I pray it won't derail but get me there on time  
Can't say what tomorrow brings but still  
I know You're mine  
At the end of the line

And now that I found you I'm satisfied  
Never believed that at the time  
You could love someone like me  
So lost in so much sin, You'll still let me in

And as we blaze on down the track of life  
I'm so amazed, just at the sight

Of all that You have waiting for me  
In Your hands... the Father's plan

Someday this train is gonna head on down the line  
And I pray it won't derail but get me there on time  
Can't say what tomorrow brings but still  
I know You're mine  
At the end of the line

3x

It's easy to see, oh, it's all plain to me  
Oh, the reason I'm here is to take it to the street  
2x

Someday this train is gonna head on down the line  
And I pray it won't derail but get me there on time  
Can't say what tomorrow brings but still  
I know You're mine  
At the end of the line  
I know You're mine  
At the end of the line
