

High Gear

Whitecross

Here we are rockin' the night,
Having fun, flying high as a kite.
Feeling good, got the joy inside.
We're liftin up Jesus, we got nothing to hide.

Time is running out my friends,
So tell those who you know.
Do whatever you can today.
Why don't you step on some toes?

Gotta get it in high gear,
And get real with what you know.
Gotta get it in high high gear.
Gonna reap just what you sow!

There you are, rockin the night.
Crank it up, see the white hot lights.
Enjoy your music, feel good inside.
No matter how you feel, there's a world about to die.

You hear the music, you see the lights.
Oh, this is only a show!
If we don't do it, nobody will.
Let's take what we have and fight!
