## I Keep Prayin'

Whitecross

There are times I get so discouraged There are days I feel so alone There's been times when looking for answers You would call and I'd hang up the phone

When I get to the place that makes me bend my knee I know I've got to stay in your presence until I'm free

I keep praying that I'll never give in To all the fears and the doubts that I feel I keep praying that I'll never give up Cause I know in my heart that your power is real

Days go by and people are hurting Lost in sin, they need to see you How your heart aches for the lonely If only we would reach up to you

When I get to the place that makes me bend my knee I know I've got to stay in your presence until I'm free

I keep praying that I'll never give in To all the things that I see in my way I keep praying and I'll never give up You're the one that brings a new day
