

I Keep Praying

Whitecross

x4

There are times I get so discouraged.
There are days, I feel so alone.
There's been times in looking for answers,
You would call, and I'd hang up the phone.

When I come to the place that makes me bend my knees,
I know I've got to stay in your presence until I'm free.

R

I keep praying and I'll never give in,
to all the fears and the doubts that I feel.
I keep praying and I'll never give up,
'cause I know in my heart that your power is real.

Days go by and people are hurting.
Lost in sin, they need to see you.
How your heart aches for the lonely.
If only we would reach up to you.

When I come to the place that makes me bend my knees,
It's then I realise that you're the one that sets us free.

R

I keep praying and I'll never give in,
to all the fears and the doubts that I feel. (I keep praying)
I keep praying and I'll never give up,
'cause I know in my heart that your power is real.
I know in my heart, yes I know that it's real

When I come to the place that makes me bend my knees,
It's then I realise that you're the one that sets us free.

I keep praying and I'll never give in,
to all the fears and the doubts that I feel. (I keep praying)
I keep praying and I'll never give up,
'cause I know in my heart that your power is real.

I keep praying and I'll never give in.
To all the things that I see in my way.
I keep praying and I'll never give up.
You're the one that brings a new day.
