

No Way I'm Goin' Down

Whitecross

Fooled me once, fooled me twice
That's the last time I'm taking your advice
I didn't believe I was bound by sin
You never let on about the shape I was in

Heard you callin' yeah, you hypnotized
Had me going with your big disguise
You thought I'd never get wise
It's no wonder they call you the father of lies

No way I'm goin' down
No way I'm goin' down

I was in the ring thought the light was fixed
I needed help and I needed it quick
You had my number I was almost down
You didn't think I'd last for another round

I was on the ropes and I had a hunch
You were coming in with a knock out punch
Then the King stepped in, said that's as far as it goes
Now look who's wearing the bloody nose

No way I'm goin' down
No way I'm goin' down
