

## Plowed Me Down

Whitecross

I was angry full of greed  
I was thinkin' of only me  
I was running from place to place  
Just making it though another day

Without a doubt I had to win  
Just when I thought I'd cash it in

I saw a bright light  
It almost plowed me down  
It made me realize my need  
I saw a bright light  
It knew all I had done  
It showed me I could be set free

I knew there had to be  
Some kind of change in me  
Would it require too much  
Too much of me  
Would I be able to really change inside  
Didn't need another burdwn of any kind

But when this light shone down on me  
His love replaced all of my need

I saw a bright light  
It almost plowed me down  
It made me realize my need  
I saw a bright light  
It knew all I had done  
It showed me I could be set free
