

Black and Blue

Whitesnake

You never call me, babe,
Until your man is gone,
I know it's you
When I pick up the telephone

You ask me how I am
And if I'm doing well,
When all you want from me
Is just to ring your bell

Take your time, we can do some lines,
'Cos it's alright
We can feel fine drinking midnight wine,
'Cos it's alright

Black and blue, black and blue,
I said come over here, baby,
And love me till I'm black and blue

You got the key to love
Dressed in your innocent smile,
You know you touched me baby,
So won't you stay for a while

And take your time, we can do some lines,
'Cos it's alright
We can feel fine drinking midnight wine,
'Cos it's alright

Black and blue, black and blue,
I said come over here, baby,
And love me till I'm black and blue
Black and blue, black and blue,
I said come over here, baby,
And love me till I'm black and blue

Take your time, we can do some lines,
'Cos it's alright
We can feel fine drinking midnight wine,
'Cos it's alright

Black and blue, black and blue,
I said come over here, baby,
And love me till I'm black and blue
Black and blue, black and blue,
I said come over here, baby,
And love me till I'm black and blue
I said come over here, baby,
And love me till I'm black and blue

Black and blue...
