

Summer Rain

Whitesnake

1. Lately I've been thinking even thou' I'm miles away
I can feel your love around me you're with me every day
And all the roads I've travelled, and all that I've been thro'

No matter where life takes me, I'm never far from you

*: You warm me like the morning sun, with you my life has just begun

R: Love comes over me, falling like summer rain, like summer rain

Pour your love on me, feeling like summer rain, like summer rain

2. I've travelled each and every highway, with you in my heart
But all the gold and silver, can't keep us apart

*: You warm me like the morning sun, with you my life has just begun

R: Love comes over me, falling like summer rain, like summer rain

Pour your love on me, feeling like summer rain, like summer rain

*: You warm me like the morning sun, baby you're the only one

R: Love comes over me, falling like summer rain, like summer rain

Pour your love on me, feeling like summer rain, like summer rain

Love comes over me, falling like summer rain, like summer rain

Pour your love on me, feeling like summer rain, like summer rain

Love comes over me, falling like summer rain
