

# Burn It Down

Whitney Duncan

Better get the matches, better get some gasoline  
I'm tearin up the pictures in our book of memories  
And gather em up into a pile on the floor  
We don't need them anymore

The floor in this house has been soaked through with tears  
But that won't matter when the fire starts spreadin hell  
It won't be long until it all goes up in smoke  
Till the sparks grab a hold

Let it all burn, bring it on down, watch it all go up in flames  
Let it give out, let it cave in, let it bring down everything  
Let it rise up to this love, there's nothing more than ashes on  
the ground

Ohhhhhhh burn it down

I'm tossin in the laughter and the smiles we knew before  
I'm tossin in the secrets that you carry through our door  
And all those nights that you looked me in the eye  
And you told me that you love me in our bed of lies

Let it all burn, bring it on down, watch it all go up in flames  
Let it give out, let it cave in, let it bring down everything  
Let it rise up to this love, there's nothing more than ashes on  
the ground

Ohhhhhhh burn it down

You think you know what love can be, til you find you don't know anything  
You just pour out your heart til there's nothing left to say  
Then you strike that match and you walk away

Let it rise up to this love it's nothing more than ashes on the  
ground

Let it all burn, bring it on down, watch it all go up in flames  
Let it give out, let it cave in, let it bring down everything  
Let it rise up into this love, there's nothing more than ashes  
on the ground

Ohhhhhhh burn it down, ohhhhhhh burn it down  
Mmmmm burn it down, mmmmm burn it down
