When I Said I Would

Whitney Duncan

The first time that I ever saw your face I felt something stop me in my place The kinda thing that you just can't see coming your way

I closed my eyes and I jumped right in Zero to sixty and to the win With my head held high like it was never coming home And I trusted you when you asked me to

When I said I would, tell me what was I thinking I gave my heart without even blinking That's all you got? Well baby that's just no good, whoa

Don't give me that line, you know I won't buy it You're as good as love as you are at lying You said 'Uh-huh' but I just don't think you understood When I said I would

I stood by you, played by the rules For a second I thought that you did too Makes me wonder how long you would have let me be a fool I gave it my best, this is what I get

When I said I would, tell me what was I thinking I gave my heart without even blinking That's all you got? Well baby that's just no good, whoa

Don't give me that line, you know I won't buy it You're as good as love as you are at lying You said 'Uh-huh' but I just don't think you understood When I said I would When I said I would

I'm taking back when I said I would love you I'm taking back every kiss that I gave you I'm taking back every promise I made you I'm taking back everything that I said

When I said I would, tell me what was I thinking I gave my heart without even blinking That's all you got? Well baby that's just no good, whoa

Don't give me that line, you know I won't buy it You're as good as love as you are at lying You said 'Uh-huh' but I just don't think you understood When I said I would When I said I would

Whoa, don't give me that line, you know I won't buy it You're as good as love as you are at lying You said 'Uh-huh' but I just don't think you understood When I said I would When I said I would
