

# I Belong to You

Whitney Houston

In a world where dreams are few  
You've got me baby, I've got you  
You're the one that makes me feel brand new

Sometimes love can wear you out  
Chill your soul baby, make you doubt  
That's you'll never find the one that's true

All my life I've longed for this  
Someone who makes me happy  
Let's seal this moment with a kiss  
I wanna know  
And nothin's gonna stop me cuz'

[Chorus]

I've been to the bottom  
But I'm back on top  
And I'm feelin' the rhythm  
As we start to rock  
When ya get down to it  
I belong to you

Though I'm not afraid to let it show  
I'll tell the world I want everyone to know  
There's nobody who does me like you do

All of my love is yours tonight  
I live to make you happy  
Nothin' has ever felt so right  
I want it all  
And nothin's gonna stop me cuz'

[Chorus]

When you touch me tender  
And you reach my soul  
When I start to weaken  
And I lose control  
When you get down to it  
I belong to you

[Chorus]
