Sometimes life can make you crazy
It can really put your body to the test
You try so hard to make sure everything goes right
And you find you've only wound up with a mess
It's a common situation
Even though you feel abandoned and alone
Child, you ain't the first to experience the hurt
So don't panic when you hit the danger zone

[Chorus:]

What you need's a little change of heart Forget this fear and frustration Love will always play the greater part When your battles wear you down Here's my advice -When you're feeling down and out And you've got troubles on you mind Love will save the day When you're feeling full of doubt And fear has got you in a bind Love will save the day When your worlds falling apart All you have to do is say a prayer And love will save the day There's an answer in your heart So let your light shine on my dear And love will save the day Love will save the day [X4]

Many things in this world bring you down
It's a wonder you can make it through the day
Well, you can't sleep cause your problems are to deep
And there's always something getting in the way
And when you turn on the evening news
Mass confusion is the only thing you see
Well there's no question that we need a new direction
Cause we all could use some peace and harmony

[chorus]

Love is gonna save the day You've gotta believe it
