

Moment of Truth

Whitney Houston

We've been playing games with our emotions

Let's get what we feel out in the open

Wanting you is all I do

Boy I know you want me, too

Don't you think it's time we proved

What we've been feeling

(Chorus): This is our Moment Of Truth

Either we win or we lose this love It's just the we that we fee
l

We'll know if love is for real, soon enough

Let out your feelings tonight

Cause oh, I know that I want you

It's all up to me and you

And the Moment Of Truth

Far too many times a heart gets broken

Just because three words are never spoken

We can't let that bother us

Not when we're so much in love

I could never get enough of saying I love you

(Chorus)

Wanting you is all I do

Boy, I know you want me, too

Don't you think it's time we proved

What we've been feeling

(Chorus)
