Fishwater

Widespread Panic

Four train days Get me back to New Orleans Drink more fishwater there Than any whale's mama ever seen Alright tonight I've been fueling my dreams eatin greens and beans When I get back down there I'm gonna drink more fish stew Than all the big fishes do

And I still want more I still want more More... I still want more

Gimme tonight Gonna dream my way on back Spend my life down there Down on that bourbon street Watch my money, and mind my legs down in New Orleans Can't tell which mens is womens there And which womens just turned me out

And I still want more I still want more More... I still want more
