

Little Lilly

Widespread Panic

Lilly likes Beatles songs
The words are off, but they don't feel that wrong
She came in through the bedroom window like a blue girl
Like a blue girl, like a blue girl

Never has to try too hard
Her whispered words could mend broken hearts
Her sundress shines through a hurricane
Making all boys squeal like swine before her

Hey, Little Lilly,
Don't believe everything you see
Hey, Little Lilly,
Don't believe everything you see

Round and round and round she goes
Like a sweetheart's girls at the movie show
Lilly leans back in the very last row
The lights go low, the show goes on

Even schoolgirls like her way
Oh, marry the preacher, you'd make a little angel someday
Silent as a child when the first snows fall
Perfect player in anyone's own little world

Hey, Little Lilly,
Don't believe everything you see
Hey, Little Lilly,
Don't believe everything you see

Round and round the taxi goes
Like Shirley's curls at the movie shows
Lilly leans back in the very last row
And the lights go low, the show goes on

Lilly likes Beatles songs
The words are off, but they don't feel that wrong
She came in through the bedroom window like a blue girl
Like a blue girl, like a blue girl

Hey, Little Lilly,
Don't believe everything you see
Hey, Little Lilly,
Don't believe everything you see
Hey, Little Lilly,
It's only real if you believe
It's only real if you believe
It's only real if you believe
