

## Proving Ground

## Widespread Panic

I really wanna move like I'd like to  
Sometimes I remember myself  
I really wanna feel like I'm supposed to  
Sometimes I remember how to feel

How did I find myself just this way  
My body keeps on moving  
But my style gets in my way

Find out just how tall I am  
By jumping in the middle of a river

Well, we were shaking cliches like we used to  
You just remember the smell  
Breaking my brain like a boy who just  
Can't forget her smell

Now, how do you like the way I drive  
Take us a little bit different way every next time (time)

Find out just how dry I am  
By jumping the middle of a river

Find out just how tall I am  
How tall I am

I really wanna move like I'd like to  
Sometimes I remember myself  
I really wanna feel like I'm supposed to  
Sometimes I remember how to feel

How did I find myself just this way  
My body keeps moving  
But my thoughts get in the way

Find out just how tall I am  
By jumping in the middle
