

The Best Song In The World

Wig Wam

Going down to the studio to make a record that would beat them
all

Then it turned out that we were one hit short

Ah, we went jamming 'till the break of dawn, oh
Ah, when we were done the producer called to listen

You've made the one, the number one
The best I've ever heard
You made the one, the golden one
(She called it the) best song in the world

And so we did and baby here we are
Sure feels great to hear you sing along
Thinking back I recognize your face
From the very night we wrote this song

Ah, dancing in a rehearsal room, oh
Ah, your body told me that you loved the tune
You said; "Listen!"

You've made the one, the number one
The best I've ever heard
You made the one, the golden one
(She called it the) best song in the world

Here we go

Are you ready to be Wig Wammed?

You've made the one, the number one
The best I've ever heard
You made the one, the golden one
(She called it the) best song in the world

You've made the one, the number one
The best I've ever heard
You made the one, the golden one
(She called it the) best song in the world
