

# How to Fight Loneliness

Wilco

How to fight loneliness  
Smile all the time  
Shine you teeth til meaningless  
Sharpen them with lies

And whatevers going down  
Will follow you around  
Thats how you fight loneliness  
You laugh at every joke  
Drag your blanket blindly  
Fill your heart with smoke  
And the first thing that you want  
Will be the last thing you ever need  
Thats how you fight it

Just smile all the time  
Just smile all the time  
Just smile all the time  
Just smile all the time
