

# Magnetized

Wilco

Orchestrate the shallow pink refrigerator drone  
Carried in the shadows almost bone  
Everyone wastes my time

The moment that you thought would murder motions you wait  
Every apprehension alien. ache, ah  
Everyone wastes my time

Everybody goes I'm  
I'm lonely

I sleep underneath  
A picture that I keep of you next to me  
I realize we're magnetized

Orchestrate the shallow pink refrigerator drone  
Carried in the shadows, ah  
Everyone wastes my time

I sleep underneath  
A picture that I keep of you next to me  
I realize we're magnetized  
I realize we're magnetized

I realize we're magnetized  
Realize we're magnetized
