

# Whole Love

Wilco

My cold Marigolds attack  
My back, a bed of roses  
I'm gonna bring my back  
With hypnosis

And I know that I won't be  
The easiest to set free  
And I know that I won't been the last  
Cold captain tied to the mast

I recall on the telephone  
I recall when you get mad  
I still love you to death  
I won't ever forget how

And I know that I won't be  
The easiest to set free  
And I know that I won't been the last  
Cold captain tied to the mast

I'm on the other side  
I'm satisfied  
Oh, I'm a spirit dove  
I'm looking for your love

I'm simple as a matter of fact  
Punch in the nose, don't over-react  
But I'll still love you to death  
And I won't ever forget how

And I know that I won't be  
The easiest to set free  
And I know that I won't been the last  
Cold captain tied to the mast

And I know that I won't be the one  
To secure that I know when it's wrong  
But I hope when I know it's passed  
And I hope I'll know when to show you my
