You and I

You and I, we might be strangers However close we get sometimes It's like we never met

But you and I, I think we can take it All the good with the bad Make something that no one else has but

You and I, you and I

Me and you, what can we do When the words we use sometimes Are misconstrued

Well, I won't guess what's coming next I can't ever tell you The deepest well I've ever fallen into

Oh, I don't wanna know Oh, I don't wanna know Oh, I don't need to know Everything about you

Oh, I don't wanna know And you don't need to know That much about me

You and I, we might be strangers However close we get sometimes It's like we never met

But you and I, I think we can take it All the good with the bad Make something that no one else has but

You and I, you and I Wilco
