

# Invisible

## Wild Beasts

I see our enemies  
I see them on their knees  
Crawling across the floor  
You kill them all

Outside our door  
A gaping hole  
Into which all will fall

You have walked through my dreams  
And I want you to see this  
Open the door, open the door

Standing at the maw  
Things vanish one by one  
Invisible, invisible, invisible

Watch them go  
All's going to fall  
I say my goodbyes  
To everyone I know - goodbye, goodbye  
I burn up my lists  
We cease to exist  
And leave nothing behind

The things I thought I'd want  
They vanish one by one  
Invisible, invisible, invisible

You have walked through my dreams  
And I want you to see this  
Invisible, invisible, invisible

Your lips to my lips  
We cease to exist
