

Endless Talk

Wild Flag

Hey, you're a little bit ruthless
Claws out and wild
You wore me down to toothless
So gummy and mild

It's all we have so we talk all of the time
You wind me up and I go, I go ooh oh
Cover my eyes till your sneer, it looks like a smile
All bark, no bite, yeah I know

You, you're a rusty little razor
With a past that gleamed
Always trying to cut me
On your dull machine

It's all we have so we talk all of the time
You wind me up and I go, I go ooh oh
Cover my eyes till your sneer, it looks like a smile
All bark, no bite, yeah I know

Words, words your enemy
Teardrops are left
Can't speak, can't see
Filled with regret

It's all we have so we talk all of the time
You wind me up and I go, I go ooh oh
Cover my eyes till your sneer, it looks like a smile
All bark, no bite, yeah I know

Oh, come on baby
I need a little more shine
How did our light get so low
