

Hey, hey, can you feel it? The way it sways you,  
The hum in your chest?  
You make my feet move, you turn my head loose  
That's why I love you the best

Hey, you fill up the spaces, those empty places  
The corners and cracks  
You kill my sickness, my only witness  
You're all that I have

Hands down we like, we like what we like  
Hands down we like, we love, we choose you  
We've got an eye, an eye for what's romance  
We've got our eyes, our eyes trained on you  
You watch us dance, we dance 'til we're dying  
We dance to free ourselves from the room  
We love the sound, the sound is what found us  
Sound is the blood between me and you

Back when I had no story, nothing to form me  
You got under my skin  
You were my maker, my re-creator  
My reason to live

Can't stop the bleeding or this leaving  
Though I've tried  
And when I return, with them fresh burns  
You're waiting inside

Hey, you've got me crawling  
You've got me spinning  
Shake, shimmy shake  
First you wreck me, then resurrect me, it's too much

Hands down we like, we like what we like  
Hands down we like, we love, we choose you  
We've got an eye, an eye for what's romance  
We've got our eyes, our eyes trained on you  
You watch us dance, we dance 'til we're dying  
We dance to free ourselves from the room  
We love the sound, the sound is what found us  
Sound is the blood between me and you

Hands down we like, we like what we like  
Hands down we like, we love, we choose you  
We've got an ear, an ear for what's romance  
We've got our ears, our ears trained on you  
You watch us sing, we sing till we're crying  
We sing to free ourselves from the room  
We love the sound, the sound is what found us  
Sound is the love between me and you
