

Follow Me

Wild Orchid

In the middle of the rapture - tell me where will you go
Baby don't get captured - cause then I'll have to follow
I will follow you anywhere
Oh, where you are I will be there
Then you'll follow me

In the middle of the ocean - tell me where will you be
Once you reach your destination - look around
You will find me I will follow you anywhere
Oh where you are I will be there, then you'll follow me

Just follow me, let your mind be free
I will be waiting (I will be waiting)
Just follow me, so patiently
Love will be waiting

Just follow me, let your mind be free
I will be waiting (Oh yes)
Just follow me, so patiently
Love will be waiting

In the middle of the desert - thirstin for what's out of reach
Lift your hands up to the sky - and you'll touch a part of me
Cause you know where you are I will be there
Just follow me, Come on, So patiently, love will be waiting

I will follow you anywhere
Cause you know where you are
Where you go I will be there (I, I will be there yeah)
Just follow me

Just follow me, let your mind be free
I will be waiting (Come on)
Just follow me, so patiently (So patiently)
Love will be waiting (Love will be waiting)

As you're runnin from the thunder - listen through the pouring
rain
And you'll hear a silent echo - I'll be calling out your name (
Calling out your name)
I will follow you anywhere (I will be there baby)
Oh where you are I will be there
