Sometimes when two people meet You know that undeniably There can be an instant chemistry

Do you feel the magic here with me Ohh, let's not wait No need to hesitate Better find out before it's too late

Tic toc look at the clock Love is just a moment away Don't stop, make my world rock Come closer don't make me wait

Tic toc the doors are all locked Love is just a moment away

Never gonna stop Gonna make you rock To the rhythm of the Tic Toc

Longing for those sleepless nights Sunday morning, lazy days and candlelight The anticipation drives me wild Fantasies they just won't leave my mind

Ohh let's not wait

Destiny said this is fate

Just imagine what we could create (we could create)

Tic toc look at the clock Love is just a moment away Don't stop, make my world rock Come closer don't make me wait

Tic toc the doors are all locked Love is just a moment away

All night long
Never gonna stop
Gonna make you rock
To the rhythm of the Tic Toc

Feel the rhythm of the Tic Toc Just hold on...

Take it nice and slow
Wanna make it flow
Like the rivers and the oceans go
Feel the current deep down below (We'll be free...)

It's a mystery
Wondering what will be
Fortune tellers are telling me
In the crystal ball they can see
You and me

Ohh, time keeps ticking away
It goes by so fast
Let's live in the moment, let's make this love last
Tic toc (ooh ohh) look at the clock
Love is just a moment away
Don't stop, make my world rock
Come closer don't make me wait

Tic toc the doors are all locked Love is just a moment away
