

Guillotine

Wildlife

Your soul is tired
Feeling old
Got no style

And though it's buried
Deep in the ground
You can find your smile

You got away from me for way too long
You've got a way

Do you ever stop to wonder
Would you feel the blade
Of the falling guillotine
Do you wonder
Will it ever stop
Will it end your suffering

And I know
Cause it's the same for me
An insane belief
About a screaming bird
That's buried in your chest
Below the neck
I'll pull it out for you again

You got away from me for way too long
You've got a way

Do you ever stop to wonder
Would you feel the blade
Of the falling guillotine
Do you wonder
Will it ever stop
Will it end your suffering

Jut say the words
And I will save you now
Jut say the words
Jut say the words
And I will save you now
Jut say the words

Do you ever stop to wonder
Would you feel the blade
Of the falling guillotine
Do you wonder
Will it ever stop
Will it end your suffering
