

Lightning Tent

Wildlife

Looks like
We've gone too far
In a matter of time
You'll all be stars

Some nights
I drag this line
All alone
Feel it break
And cut inside

The past is just a bridge
We burned down
Behind us
When we left this town
Running from the blinding heat
Of our
Disaster
When we left this town

Looks like
You've gone too far
So get in line
With the morning star

The past is just a bridge
We burned down
Behind us
When we left this town

Running from the blinding heat
Of our
Disaster
When we left this town

You can rely on me
I will always let you down
You can rely on me
I will always let you down
