

Eternity

Wildpath

Utter darkness, my mind yields to madness
I've met the master now I'm a creature of the night
How could I live without you by my side?
I've got no choice I have to hide from the sunlight

I've been waiting for so long in the night
Don't you know I'll love you till the end of time
One day I'll have to face my destiny
My old dreams are lost for eternity

Nobody can understand, nobody can hear my pain
Memories can't leave my brain
Oh please take me by the hand, and give me a kiss again
In your arms until the end

Now as the night disappears,
A sunbeam lights your face
I don't want to leave this place... no more...
Now as I climb to the sky with tears in my eyes
Your real love heals my heart... again...

Don't let your life trample down all your dreams
Wake up and find the meaning of your life
Together we'll be stronger to beat our fate
Trust your feelings and fight until the end

Nobody can understand, nobody can hear my pain
Memories can't leave my brain
Oh please take me by the hand, and give me a kiss again
In your arms until the end

Now as the night disappears,
A sunbeam lights your face
I don't want to leave this place... no more...
Now as I climb to the sky with tears in my eyes
Your real love heals my heart... again...

Now as the night disappears,
A sunbeam lights your face
I don't want to leave this place... no more...
Now as I climb to the sky with tears in my eyes
Your real love heals my heart... again...
