

# Come Lay With Me

Wiley

Maybe it's me  
Maybe it's you  
God only knows how it happened  
But we know it's true  
Baby  
I get the feeling that I've found  
My everything, when you're around  
And I'm lovin' the way  
(You kiss me gently)  
And whisper my name  
Woah

See  
The situation that we need to handle  
So won't you come lay with me  
So we can finally live our dreams  
(2x)

There will never be  
Another who can love you like me  
I'll take my time, we ain't gotta rush  
Your body's than my touch  
The sexy vibe I get from you  
I like it  
So exciting  
And, I can't control myself  
I'm in the mood, so don't fight it  
Come on here cause I got this for you

See  
The situation that we need to handle  
So won't you come lay with me  
So we can finally live our dreams  
(2x)

Boy your love  
Let me just  
Feels so  
Know you want me

It's no use, I'm not gettin my work done  
She wants me to lie down get comfy  
It's not like we both get paid monthly  
You see me workin it's for you, money  
Seekin' new money for me n my honey  
I've gotta work so I fill up my tummy  
She'd rather tease me than my programme  
And keep me in so I make minimal money  
It's no use, she's kissin my neck  
I don't wanna stop now  
Keep kissin my neck  
New double bed  
Let's christen the bed  
Wait up, you're seducing me  
I've got work to do  
She got crazy  
Next fing I knew I was in this bed

Gettin wicked in the bed  
And I had about several months on my neck  
She got so wild, I will never forget

See  
The situation that we need to handle  
So won't you come lay with me  
So we can finally live our dreams  
(3x)
