

Come Lay With Me

Wiley

Maybe it's me
Maybe it's you
God only knows how it happened
But we know it's true
Baby
I get the feeling that I've found
My everything, when you're around
And I'm lovin' the way
(You kiss me gently)
And whisper my name
Woah

See
The situation that we need to handle
So won't you come lay with me
So we can finally live our dreams
(2x)

There will never be
Another who can love you like me
I'll take my time, we ain't gotta rush
Your body's than my touch
The sexy vibe I get from you
I like it
So exciting
And, I can't control myself
I'm in the mood, so don't fight it
Come on here cause I got this for you

See
The situation that we need to handle
So won't you come lay with me
So we can finally live our dreams
(2x)

Boy your love
Let me just
Feels so
Know you want me

It's no use, I'm not gettin my work done
She wants me to lie down get comfy
It's not like we both get paid monthly
You see me workin it's for you, money
Seekin' new money for me n my honey
I've gotta work so I fill up my tummy
She'd rather tease me than my programme
And keep me in so I make minimal money
It's no use, she's kissin my neck
I don't wanna stop now
Keep kissin my neck
New double bed
Let's christen the bed
Wait up, you're seducing me
I've got work to do
She got crazy
Next fing I knew I was in this bed

Gettin wicked in the bed
And I had about several months on my neck
She got so wild, I will never forget

See
The situation that we need to handle
So won't you come lay with me
So we can finally live our dreams
(3x)
