

Doorway

Wiley

If you can't see wipe your eyes and look straight forward (4x)

What you want money or happiness?

Me I'm liable to go for the money

Going for the money could lead to lead to disaster

I'm a rudeboy I spend money much faster

I'm not stupid, no I'm a saver, when I was young I used to be a raver

Now I entertain the ravers plus I gotta pave the way for the youngsters

I gotta break them barriers you cant hold me back I want my people to see the system is a disease and we are the carriers killing each other because of heroin crack cocaine and money

We have gotta break these barriers fast they class ain't worth this hassle

Look into the future everybody look into the future and me lets forget the past

And look for the doorway

If you can't see wipe your eyes and look straight forward

Cant you see that we are blind to ourselves?

Try to understand life before you pull the trigger and take another life

I think life's worth more than drugs and money

You didn't think you would see me getting somewhere in life I'm sitting up here in life

No amount of money is worth more than happiness I can tell you that believe me

I got pain that's never gonna go away this pain is here to stay with me

Still I'm on the path to success take a little bit of rough with the smooth its alright

Life is like a bed round riot I'm trying to learn about life it's hard

I'm hurting inside I'm burning inside but one good thing I'm determined inside

Part of my heart is working inside because if I can be loved then I can love back

Part of my unhappiness is that because I don't roll around family and that I'm on my own

If you can't see wipe your eyes and look straight forward

Cant you see that we are blind to ourselves? change your ways

Try to understand life before you pull the trigger and take another life

I think life's worth more than drugs and money

It looks all good from the outside crepes and claws and bites and
sleepless nights and pointless fights in the manor everybody
wanna be the top boy in the manor
Hanging on the streets with skanks or blazing on the stairs I'm
not having it either blood
Nobody's having it that's gonna lead to a pool of blood with mo
unds of your blood
The streets are cold you wont wanna be around when the stray bu
llets fly around
I just wanna hustle my town and cover my ground go to my yard a
nd lie down
No we don't wanna be tied down I've tried that so I gotta move
on your life and move past that
I'm in a class of my own I got status come on wiley you can do
this I gotta get through this
Concentrate and focus I can see clearly through my lenses I'm a
reason
So you should start to take note cuz you might learn a little s
omething I'm like you
One day I was broken then I got money then I went broken then I
got money then I went broke
It's a usual cycle that's why people can't cope. you stay there
laugh and joke til one day it's not a laugh or a joke confusio
n hits your head you can't see you turn to other things you're
angry inside you can't be weak to overcome the system we are in
you've got to be powerful
Don't underestimate people I can show you now I've proved to my
self I can do it boy.
